

NORTH AMERICA DISTRIBUTOR FOR VEX SOLUTIONS PARTY DASH

## Party Dash Results

Large Resort Arcade | Wisconsin Dells, WI  
Summary December 11, 2025 – April 19, 2026  
(4 months + 8 days)

**Party Dash has demonstrated standout early performance in a high-traffic resort arcade environment—reaching gross revenue payback in just over four months.** At Wilderness Resort in Wisconsin Dells, Party Dash generated **\$72,330** in gross sales over its first 18 weeks (Dec. 11, 2025–Apr. 19, 2026) against an installed cost of **\$70,500**, indicating it **paid for itself in approximately 4 months + 8 days** at this location.

Beyond revenue, Party Dash functions as a **highly visual, active “feature attraction”** that draws spectators, supports group play, and can lift engagement in the surrounding game area. Performance will vary by venue based on **foot traffic, placement, pricing, and mix**, but these results provide a clear benchmark for evaluating potential revenue and **revenue per square foot** (Party Dash footprint: **~110 sq. ft.**).

## Here is a recap of the revenue for the first 18 weeks of use:

December 2025 Sales (15 total days):	\$13,550
January 2026 Sales:	\$16,115
February Sales:	\$14,030
March Sales:	\$19,225
April 1-19 Sales:	\$ 8,910
Total Sales Year to Date:	<b>\$72,330</b>

Party Dash total with install: \$70,500

**Paid for in 4 months + 8 days!**

*Results shown reflect one high-traffic resort arcade and are not a guarantee of future performance. Revenue will vary based on traffic, placement, pricing, and operational factors.*

## Important considerations when evaluating your results

Like any attraction, revenue performance is influenced by several factors—especially:

- **Foot traffic:** A game room seeing 100 guests a day will naturally produce different totals than one seeing 1,000. Even so, operators often see similar **revenue share** (percentage of total game room earnings) when placement and guest demographics are comparable.
- **Placement:** This location positioned Party Dash in a **central, high-visibility area**. In addition to generating strong revenue, it also helped lift nearby games—guests waiting their turn frequently played surrounding games while they watched.

## How to estimate performance for your venue

To compare Party Dash to your arcade, use the revenue reports below as a benchmark:

1. Identify several games in the report that are also in your location (or are close equivalents).
2. Add those games’ revenues together for the same time period.
3. Compare that total to the same group of games at your facility during a comparable period to estimate how your location’s performance aligns.
4. Apply that ratio to Party Dash’s performance to create a **rough revenue estimate** for your venue.

## Another helpful benchmark: revenue per square foot

Party Dash occupies approximately **10' × 11' (110 sq. ft.)**. You can compare its **revenue per square foot** against your top-performing pieces to evaluate efficiency of space.

Keep in mind: Party Dash functions as more than a traditional arcade game—it's a **featured attraction** that helps draw attention, generate replays, and increase overall game room energy.

**Please contact our sales team for further information at  
423-892-7264 (then dial 2 for Sales)**

The following pages are weekly reports from the game room. The position of the Party Dash each week is highlighted with a yellow arrow.

Week 1 Dec 11-14: FOUR DAYS ONLY: a Top five earner and #3 on individual game chart
